- Project/Team Management
- Team work
- Leadership
- Effective Communication
- Critical Thinking

PROFILE

I am a results-driven **Full stack Developer** with **8 years** of experience, specializing in **React.js, React Native, Redux and JavaScript**. My expertise lies in building scalable, high-performance web and mobile applications, ensuring seamless user experiences. With a solid foundation in **HTML, CSS, and JavaScript**, I am passionate about state management techniques to optimize application performance.

I have hands-on experience with **Firebase**, integrating real-time features into applications. A fast learner, dedicated, and highly adaptable, I thrive in dynamic, fast-paced environments. I stay ahead of the curve with the latest frontend technologies, always striving to create intuitive, efficient, and engaging applications that enhance user satisfaction.

EXPERIENCE SUMMARY

- Result-focused and customer-oriented **Full stack Developer** with professional expertise in designing web pages for large or complex projects.
- Proficient in utilizing **React JS, React Native, And JavaScript** as primary skills.
- Proficient in developing user interfaces using **Material UI, Fluent UI, Tailwind CSS** and **SCSS**.
- Proficient in **routing, hooks**, custom fields, and reusable components in **ReactJS** and **Redux** store management.
- Proficient in **Firebase Cloud Functions**, with strong expertise in backend development.
- Quick learner with the ability to adapt and implement technologies based on project requirements.
- Always focused on meeting expectations to 100%.
- Experience in developing responsive web designs for optimal viewing across devices.
- Led a development team, coordinated with cross-functional teams, and managed interns.
- Defined and enforced code standards, branching strategies, and development workflows.
- Managed application releases and deployment processes.

EDUCATION

Bachelor of Technology (B.Tech) - Electronics & Communication Engineering

- CMR Technical Campus - JNTUH
- Year of passing - 2016

Intermediate - MPC

- KSM Jr College
- Year of passing - 2012

LANGUAGES

English (Fluent)
Telugu (Fluent)
Hindi (Understandable)

WORK EXPERIENCE

Zelarsoft Private Limited

SEP 2022 - PRESENT

Full Stack Developer

- Worked as team player in developing the drug development platform
- Promoted as team lead
- Leading the team upfront and making decision to match with client satisfaction

Apoyar Software Technologies

MAY 2021 - SEP 2022

UI Developer

- Development of the modules and components using React and Redux.
- Responsive Web UI design.
- Extensively involved in all phases of Project Lifecycle.

Telebu Communications LLP

OCT 2019 - APR 2021

UI Developer

- Core design decision on the front-end development.
- Development of the modules according to the requirements.
- Responsive Web UI design.

Ventro Tech Pvt Ltd

JAN 2017 - SEP 2019

UI Developer

- Core design decision on the front-end development using HTML, CSS, Bootstrap and JavaScript.
- Developing the static websites
- Responsive Web UI design.

PROJECTS

Mindly Care (Aug 2023 - Present)

Role : Full Stack Developer

Technologies: React.js, React Native, Firebase, Material UI, JavaScript.

Responsibilities

- Led a development team, coordinated with cross-functional teams, and managed interns.
- Defined and enforced code standards, branching strategies, and development workflows.
- Collaborated with stakeholders to gather requirements, provide updates, and align development with business goals.
- Designed and implemented key features for a web and mobile platform.
- Developed functionality for file uploads, user interactions, and data management.
- Integrated real-time communication, group management, and role-based access controls.
- Created architectural documentation and ensured system scalability and maintainability.
- Managed application releases and deployment processes.
- Integrated cloud-based services for authentication, database management, and analytics.
- Optimized data fetching and state management for performance improvements.
- Ensured compliance with security and data protection standards.
- Identified and resolved security vulnerabilities and performance issues.

Celito Tech(Sep 2022 - Aug 2023)

Role : Full Stack Developer

We focus on building software platforms that take drug development lifecycles from the early stages all the way through commercialization. We partner with pharmaceutical companies and biotechnology clients for each of the following services

Technologies: React Js, TypeScript, Fluent UI, SASS/SCSS, Storybook, React hook forms, yup validations, JavaScript, CSS, Material Design, Bootstrap

Responsibilities

- Developed and maintained user interfaces using React.js and TypeScript.
- Designed and implemented responsive UI components compatible with various screen sizes, including iPads and larger displays.
- Utilized Fluent UI and Material Design to create visually consistent and accessible interfaces.
- Built reusable and modular components with Storybook for UI documentation and testing.
- Integrated React Hook Forms and Yup for efficient form handling and validation.
- Ensured code quality and maintainability by following best practices, including Airbnb style guidelines, ESLint, and SonarLint.
- Styled applications using SASS/SCSS, CSS, and Bootstrap for a consistent and responsive design.
- Collaborated with cross-functional teams to enhance UI/UX and optimize performance.

SupportPod (May 2021 - Sep 2022)

Role : UI Developer

SupportPod's certification and matching service, supported by our robust Recruitment Process Outsourcing, provides comprehensive insights to help you choose the most suitable certified on-demand IT freelancers or permanent hires. This streamlines engagement, minimizes risk, and maximizes the chances of successful outcomes.

Technologies: React Js, TypeScript, Fluent UI, SASS/SCSS, Storybook, React hook forms, yup validations, JavaScript, CSS, Material Design, Bootstrap

Responsibilities

- Developed and maintained React.js -based user interfaces with a focus on performance and scalability.
- Designed and implemented responsive UI components for optimal user experience across devices.
- Utilized Redux for efficient state management and seamless data flow within the application.
- Styled applications using CSS, Material Design, and Bootstrap to ensure a consistent look and feel.
- Made core design decisions for frontend architecture and component structure.
- Actively participated in all phases of the project lifecycle, from requirement analysis to deployment.
- Collaborated with backend developers and designers to enhance UI/UX and optimize performance.

Tabiib (Oct 2019 - Apr 2021)

Role : UI Developer

TABIIB is an online health platform (web and app) that connects patients, doctors, and clinics for seamless healthcare access. Patients can find doctors by location and specialization to book appointments, while clinics can manage multiple doctors, schedules, and appointments efficiently.

Technologies: HTML, CSS, JavaScript, Bootstrap.

Responsibilities

- Made core design decisions for front-end development to ensure a seamless user experience.
- Developed and implemented UI modules based on project requirements.
- Designed and optimized responsive web interfaces for accessibility across devices.
- Utilized HTML, CSS, and Bootstrap to create clean and consistent layouts.
- Enhanced interactivity and user engagement using JavaScript.
- Ensured cross-browser compatibility and performance optimization.
- Collaborated with backend developers and designers to align UI with business needs.
